

HANDOC

THE HAND INJURY MANAGEMENT EXPERTS

HANDOC THE HAND INJURY PROVIDER OF CHOICE IN WESTERN AUSTRALIA

HANDOC offers a comprehensive service for the acute management and rehabilitation of hand and wrist injuries in WA

HANDOC REDUCES THE IMPACT OF HAND INJURIES ON THE PATIENT AND THE EMPLOYER

HANDOC prides itself on providing prompt and comprehensive communication to everyone affected by a hand injury. This includes not only the patient, but also the employer, the insurance agency and the referring medical practitioner. We believe that good communication helps reduce the impact of hand and wrist injuries on everyone concerned.

REDUCE LOST TIME TO INJURY

HANDOC incorporates the largest group of specialist hand surgeons in Western Australia. Our medical professionals are all specialist plastic surgeons who hold consultant positions in Western Australia's major hospitals and offer a complete surgery solution for workplace upper limb injuries.

ONE NUMBER FOR TOTAL CARE

Call 1300 HANDOC to gain specialist care for:

- CRUSH INJURIES
- TENDON REPAIRS
- BURNS
- HIGH PRESSURE INJECTIONS
- AMPUTATIONS & REPLANTS
- FINGER TIP INJURIES
- MAJOR HAND & WRIST TRAUMA
- FRACTURES & DISLOCATIONS
- HAND LACERATIONS

SEVEN SPECIALIST HAND SURGEONS: CONTINUOUS SERVICE ALL YEAR

One telephone number offers total care when it comes to hand injuries. '1300 HANDOC' puts an individual directly through to a specialised hand surgeon, where they or their medical provider can discuss the best course of action for a specific injury. HANDOC can also arrange immediate transportation in the Perth metropolitan area, to a private hospital where injury appropriate management can be implemented immediately. As a result, patients are managed by a Hand Specialist immediately rather than left waiting in a public hospital emergency department.

SPEAK DIRECTLY TO A HAND SURGEON - NO WAITING IN EMERGENCY ROOMS

HANDOC surgeons are supported by an in-house team of nurses and independent hand therapists, an occupational physician and vocational rehabilitation providers. HANDOC's focus is on reducing LTI's and returning patients back to work as soon as medically feasible. Patients can also make an appointment for hand therapy at seven locations in Perth or Albany. This means they can choose a location close to home, which further enhances compliance and return to normal function - which of course means return to work.
