

Makeovers are fun, especially when the result is jaw-dropping. Assure Medispa in Subiaco has a new 30-day program called Sparkle that combines the latest non-surgical and non-invasive cosmetic procedures with skincare products customised to your skin type. It includes a consultation with a medical aesthetician, a Beau Visage skin analysis, personalised treatment regime (this can include a combination of IPL, chemical peels, medical skin needling, microdermabrasion and wrinkle relaxers), use of medical-grade skincare products and a professional makeup application. Dramatic improvements are said to kick in after 30 days. Voila!
