

# What's new: MEDISPA

With interest in cosmetic treatments at fever pitch, a team of plastic surgeons has set up a dedicated spa for people wanting to improve their appearance, but who don't want to have surgery.

Assure Medispa, based at St John of God medical clinic, Subiaco, is WA's first medispa owned and operated by a team of plastic surgeons.

Offering treatments such as skin imaging to determine the extent of sun damage, microdermabrasion, IPL and chemical peels, Assure Medispa also offers pharmaceutical-grade Glo Minerals make-up and skin-care products to help reduce the signs of premature ageing, repair damaged skin or manage hair loss.

Clients are offered a complimentary consultation to discuss their needs and expectations. For more information call 9380 0380.
